

ITConcepts DRAFT 6-30-2011

Eliminate your data silos and add more value to your BMC Investment.

Drive out your disparate information silos that encourage finger pointing, all hands on deck troubleshooting calls, and ineffective network and services management—with Eye of the Storm (EYE Enterprise). EYE Enterprise is designed to integrate into BMC's Atrium, Remedy, ProactiveNet Performance and even configuration management through Bladelogic Network Automation (BBNA). Adding EYE Enterprise's comprehensive network management details to your BMC solutions encourages automatic data collaboration that fosters ---faster response times, less manual work, more accuracy and improved efficiency.

It's more than network management.

Comprehensive BSM strategies should include network infrastructure data and monitoring details to deliver uniform management. Adding real-time network infrastructure data directly to your BMC products creates a true integrated solution to fully understand Service Performance and how the network is affecting performance. No more disparate information silos, no more finger pointing---just an effective ***integrated*** method for managing both the network and the services that reside on the network.

Unified BSM Architecture—Manage Across Platforms, Vendors and Silos

Sharing knowledge across the entire IT organization is invaluable. Integration of data allows for faster response times, more automation for improved IT staff productivity, more accuracy and all around IT efficiency. Applying network infrastructure data to the mix of your BMC IT data provides uniform management. The chart below illustrates what happens when the "left hand does not know what the right hand" is doing and how EYE Enterprise can help.

<i>EYE Enterprise Combined with BMC Solutions</i>	<i>Without a Unified strategy</i>
<ul style="list-style-type: none"> • <i>Improves Availability</i> 	70% of incidents are reported before IT even knows there is a problem
<ul style="list-style-type: none"> • <i>Exceeds Service Level Commitments</i> 	85% of companies fail to meet service commitments
<ul style="list-style-type: none"> • <i>Enables Virtualization & Cloud Computing</i> 	31% of IT organizations site lack of Analytics as the top impediment to effective problem isolation
<ul style="list-style-type: none"> • <i>Reduces IT Cost</i> 	On average 14 people are involved to correct a typical day-to-day problem.

Solve your Data Silos issues today, share data for improved performance by adding Eye of the Storm to your BMC BSM strategy. For further information about Entuity's EYE Enterprise, please take some time to review the media below. Take full advantage of your existing BMC products and deliver improved, stable network performance to your end-users. Discover how the network relates to your business services, schedule a personal demonstration today, call us at: +41 41 790 33 33.
